

Non-Destructive Entry for Law Enforcement

MCOLES 302 funding registered/approved

Why use Non-Destructive Entry (NDE)?

NDE offers an alternate option to a forced entry. Techniques such as lock picking can allow patrol officers, supervisors, command officers, detectives, surveillance/narcotic officers, special response/SWAT teams, Federal, State, County and Local law enforcement a covert and non-destructive entry method. NDE can be appropriate and helpful for welfare checks, community caretaker functions, suspicious circumstances, search warrants, a tactical option, covert entries, or even a home lockout.

Forced entry is the *most expensive* and *least efficient* method of entry, and is not always necessary. With forced entry, there are significant costs of repair or replacement of a smashed door, broken lock and door frame, all of which costs several hundred dollars to well over \$1,000, not to mention officer time waiting for board up or repair crews, litigation and loss of goodwill.

BASIC COURSE: This 2-day course will introduce participants to the core basics of non-destructive entry, including lock-picking techniques, bumping, and bypass methods over a 2-day course with more than 300 locks. Participants will practice on residential and commercial locks, padlocks, deadbolts, knob locks, lever handled locks, and mortise cylinders. Professional lock picking set/other tools provided. **April 23-24 2018.** Cost is \$475.00. *(Delta College Consortium Members receive a special reduced rate)*

ADVANCED COURSE: This 2-day course is part two of the training that follows the basic course. Students need to have had the basic course or similar training, and will need to bring their professional pick set from the basic course. Advanced lock picking techniques and bypass are covered, along with less destructive locksmith based entry techniques. There are over 300 locks including tubular locks. Professional tools are provided. **April 25-26, 2018.** Cost is \$475.00. *(Delta College Consortium Members receive a special reduced rate)*
