

Non-Destructive Entry for Law Enforcement

Training has been MCOLES 302 funding registered

Why use Non-Destructive Entry (NDE)?

NDE offers an alternate option to a forced entry. Techniques such as lock picking can allow patrol officers, supervisors, command officers, detectives, surveillance/narcotic officers, special response/SWAT teams, Federal, State, County and Local law enforcement a covert and non-destructive entry method. NDE can be appropriate and helpful for welfare checks, community caretaker functions, suspicious circumstances, search warrants, a tactical option, covert entries, or even a home lockout.

Forced entry is the *most expensive* and *least efficient* method of entry, and is not always necessary. With forced entry, there are significant costs of repair or replacement of a smashed door, broken lock and door frame, all of which costs several hundred dollars to well over \$1,000, not to mention officer time waiting for board up or repair crews, litigation and loss of goodwill.

COURSE OVERVIEW: This 4-day course will introduce participants to the core basics of nondestructive entry, including lock-picking techniques, bumping, and bypass methods over a 4-day course with more than 200-300 locks. Participants will practice on residential and commercial locks, padlocks, deadbolts, knob locks, lever handled locks, and mortise cylinders. More advanced techniques related to lock picking and bypass, along with less destructive locksmith based techniques are also introduced, along with "live" practice on a target at the OCC CREST facility. Students leave complete the course with plenty of hands-on practice, and a professional set of tools that are provided that they keep, making them "job ready" at course completion.

August 1-4, 2022. Cost is \$1050.00, with all student issued tools included in this price.

“WHY KICK IT WHEN YOU CAN PICK IT” ®
